

# YES

## We consent to:

Having giant windmills planted on our land and seas; and

foreign boats fishing our seas; and

being forced to destroy perfectly good fish; and

subsidising the UK to the tune of £81M per year; and

the theft of our oil; and

all the other things done in abuse of our sovereignty -

# As soon as you show us proof of your authority.

## It shouldn't be difficult - if it exists.

# **It's very simple: by the Laws of Scotland:**

- 1. The will of Scotland and the UK is enforced in the courts.**
- 2. The authority of the court derives from the sovereign power.<sup>1</sup>**
- 3. The sovereign power is the same as allodial (udal) ownership.<sup>2</sup>**
- 4. The Crown does not have allodial ownership of Shetland.**
- 5. The people of Shetland have allodial ownership of their land.**
- 6. In Shetland, the people have sovereignty - we are above the King.**
- 7. For the Crown: no allodial ownership = no sovereignty = no courts = no power. To show proof of authority, all they have to do is show they have allodial ownership of Shetland - simple, but they can't.**

**They've got away with it for over 550 years.**

**It's time it stopped.**

**In Shetland all are sovereign, but nobody has sovereignty over another.**

**If you would like no VAT, no income tax, no excise duty, rid of Viking Energy, control of our seas and seabed and more, it's never too late:**

**Anyone offering "more autonomy" and suchlike offers nothing unless they challenge sovereignty. They are just a sop to make people think something is happening. Going cap in hand doesn't work. Never has, never will. We have far more power than we think - let's use it for the good of Shetland.**
